

## Equine Health Entry Requirements

**\*Required for all West Palms Events' Shows\***

It is of the utmost importance of West Palms Events to protect the health of both horses and riders at all our events. It is required by West Palms Events and USEF that the **following vaccine documentation and this form** be produced **per horse** in order to attend any of our events and enter any show facility.

### **Proof Of Vaccination**

Upon arrival at any facility, all horses must provide the following vaccine documentation:

- Within 6 months of the show: **Equine Influenza**
- Within 6 months of the show: **EHV 1 and EHV 4 (Rhino-Pneumonitis)**

### **Guidelines**

- If a vaccination is due to expire during one of the events, it is necessary that the horse receive its new vaccine prior to arriving at the show facility.
- If a horse arrives without documentation, they will be referred to the Show Veterinarian to receive the required documents and/or vaccines, and could be placed in quarantine stabling until the proper documents are obtained.
- Please be sure to keep a copy of health certificates in an easily accessible place on the show grounds (tack room, trunk, etc.).
